SKILLS

C# .NET Core

Angular

Microsoft SQL Server

Typescript

Github

Azure DevOps

Power to quickly adapt

Analytical thinking

Eye for detail

Structure

Technical curiosity

Learning curiosity

PROFILE

Driven and eager-to-learn graduate in Higher Professional Education (HBO) Computer Science with a strong affinity for software development, problem-solving, and full-stack development. The core values I adhere to are: taking initiative and persevering. What sets me apart is my ability to learn quickly and continuously develop myself in a rapidly evolving sector. I am familiar with modern software design principles such as Clean Architecture and enjoy working within structured development processes with clear standards and CI/CD integrations. Additionally, I have experience applying methodologies such as CQRS and Domain-Driven Design.

EDUCATION

Bachelor Computer Science

Sep 2018 - Jul 2025

Avans University of Applied Science, Breda

- During my studies at Avans University of Applied Sciences, I specialized in both frontend and backend technologies, with a specific focus on developing robust, scalable applications using C#/.NET Core, Angular, and Microsoft SQL Server.
- Graduated with an average of 7.6 for both the main and preliminary phases | 3.3 GPA

Higher General Secondary Education (HAVO)

Aug 2012 - May 2018

Peellandcollege, Deurne Helmond

- During my education in Higher General Secondary Education (HAVO), I initially oriented myself within the Nature & Technology profile, but it quickly became clear that Mathematics B was a challenge for me. As a result, I switched to the Nature & Health profile the following year, as I had a strong interest in STEM subjects such as physics, chemistry, and even biology, with computer science as an elective. I ultimately graduated in 2018, fulfilling the requirements for the N&G profile at HAVO level.

EMPLOYMENT

Graduation Internship

Nov 2024 - Jun 2025

Dataleaf Smart Software Solutions, Breda

- Implementing a communication module within the electronic client file (ECD) Oscar, renewed by Dataleaf, to facilitate communication flows within the context of the application, ensuring internal communication.
- My graduation internship at Dataleaf Smart Software Solutions provided me with the opportunity to gain practical experience in a professional development environment.
- This project required not only technical knowledge but also analytical thinking, attention to detail, and the ability to understand and effectively integrate complex systems into existing software architectures.
- Completed and defended with an 8-grade on July 2, 2025.

Practical internship

Aug 2020 - Jan 2021

Datacon Integration Solutions BV, Tilburg

- Internship for integrating multiple platforms into a web portal as a central access point.
- Utilizing the existing development stack with .NET Core and new technology in Angular.
- Completed with an 8,5

Part-time Assistant

Oct 2023 - Nov 2024

Joosten Montage & Techniek, Vlierden

- Assistant for maintenance tasks on parking systems.

Part-time Delivery driver

Sep 2020 - Sep 2023

Jumbo Supermarkten, Breda

- Delivering orders to individuals and businesses for Jumbo Hub Breda.

Part-time Warehouse employee

Jul 2015 - Aug 2020

Van Zeeland Watertechniek, Deurne

- Organizing the warehouse, order picking, handling transport orders, and working as a sales associate in the store.

ACHIEVEMENTS

- Consistently achieved high grades during internships and studies, including an 8.5 for the internship and an average of 7.6 for the Bachelor Computer Science program.
